

HITACHI

Reliable Solutions

Model code : ZW250-7 Engine maximum power : 188 kW / 252 hp Operating weight : 20 400 – 20 830 Bucket ISO heaped : 2.8 – 5.0 m³

You're in control

You're at the heart of Hitachi Construction Machinery's design for its latest range of wheel loaders. To continuously improve on previous generation machines, we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the ZW-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

Complete control

The cab interior provides a comfortable working environment.

The new ZW-7 range of wheel loaders puts you firmly in control, so you can feel assured of your machine's performance, and supported by the technological expertise and services that Hitachi Construction Machinery provides.

Approach speed control maximises fuel efficiency on loading operations.

The payload checker helps you work more productively and accurately when loading trucks.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your wheel loader.

Integrated console and seat suspension gives a greater sense of control and seatmounted electric control levers reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle® camera system (optional) and new LCD monitor.

Safety is enhanced by the rear obstacle detection and warning system (optional).

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

Maintenance is quick and easy due to improved access to components and anti-clogging radiators.

Higher engine output at lower engine RPM increases performance.

Control zone

Enhanced comfort and safety features are at your fingertips in the refined cab of ZW-7 wheel loaders, giving you the power to perform productively, with ease and reduced fatigue.

- (1) Seat-mounted electric control levers help to reduce fatigue.
- 2 Multifunction or finger-type control lever options to suit your preference.
- (3) Integrated console and seat suspension gives a greater sense of control.
- (4) **USB power supply and smartphone holder** helps you stay connected.
- **5** Armrest-Integrated sub monitor controller provides fast access to main functions.
- 6 Ergonomically designed adjustable armrest so you can work comfortably.
- (7) **User-friendly storage space** keeps your workspace tidy and clutter-free.
- (8) Heated heavy duty seat with horizontal suspension.

Operation is easy with ergonomically designed controls and switches.

- (9) Drinks holder is easy to detach for cleaning.
- **Joystick Steering System** (optional) provides exceptional control.
- (11) Anti-slip steering wheel for effortless operation.
- (12) **3.5" colour liquid crystal display** in the front dashboard is easy to view.
- **Spacious cab** gives you a pleasant working environment.
- (14) Panel switch integrated functions are user-friendly.
- (15) Electrically adjusted mirrors switch is easy to use.
- **High-resolution 8" monitor** is easy to use and navigate.
- **Bluetooth**® for hands-free calls and DAB+ radio for music while you work. Audio is easily controlled.

All commonly used functions can be selected at a glance using the side panel switch.

In control of your business

Improve your profit

The success of your business depends on the reliability and efficiency of your construction machinery. With the latest ZW-7 wheel loaders, you can count on the highest quality, the ultimate in operating comfort and reduced running costs – all of which will have a positive impact on your bottom line.

You can look forward to increasing your profits thanks to the impressive fuel economy and efficient operation of these Stage-V compliant machines. The new ZW250-7 delivers further reductions in fuel consumption and greater efficiency with features such as approach speed control. This allows operators to control the travelling speed on short loading operations, which results in less fuel consumption. The lock-up transmission also reduces fuel consumption while travelling.

Another way for your operators to control fuel efficiency – and reduce costs – is by using the all-new ECO gauge. This is clearly visible on the multifunctional colour LCD 3.5" monitor.

Your operators can also work more productively and accurately thanks to the payload checker. This enables them to keep track of load weights in real time on the monitor and find out how much material is in the bucket or truck. The display shows when the bucket or truck is overloaded, so you can adjust the final load to achieve target capacity.

Work more productively and accurately using the payload checker.

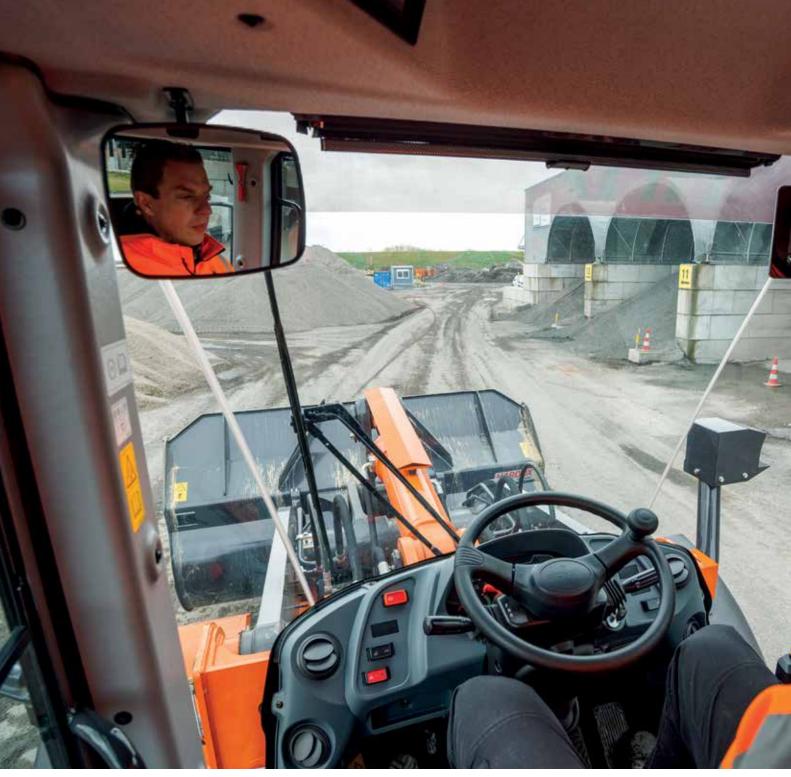

Impressive fuel economy and exceptional efficiency of the ZW250-7 increase profitability.

The ECO gauge helps to deliver better fuel consumption.

Approach speed control maximises efficiency.

You're in control with a spacious, tidy and enjoyable working environment.

The cab has ample space for your belongings.

The LCD monitor is easy to view with hi-res screen.

Ergonomically placed sub monitor controller provides easy access.

In control of your comfort

Feel the difference

The redesigned, state-of-the-art ZW-7 cab gives you the perfect working environment. Ultra-spacious and industry-leading, it offers the ultimate in comfort and quality, as well as some of the lowest noise and vibration levels in the market.

Feel the difference with the synchronised motion of the seat and console, and seat-mounted electric control levers, which have been designed to ensure you feel less tired at the end of the working day.

Easy operation comes with the ergonomic design of the multifunction lever, the anti-slip steering wheel and the adjustable armrest with integrated controller. You can navigate quickly through the menu on the 8" LCD monitor with the sub monitor controller. The hi-res screen is also easier to view, and the refreshed layout offers a clear display and desirable functionality.

With more storage for your personal belongings, such as your coat, smartphone and drink, you'll feel instantly relaxed and ready for your shift. Practical functions of the joystick steering system, such as wiper and horn, will make your working day effortless and enjoyable.

In control of your environment

Increase your safety

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new ZW-7 wheel loaders give you a superior view of your surroundings, so you can see the job site from all angles.

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle® camera system. You can choose from two image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you.

The rear obstacle detection system also enhances safety on the job site, with real-time speed, machine position status and large detection zone.

To help you to work more confidently and efficiently, even in the most challenging of conditions, ZW-7 wheel loaders are fitted with some impressive new features. From the LED work lights (in two variants: standard 1200lm and high brightness 4200lm) and roller sunshade, you'll have the visibility you need when it matters most.

Electrically adjusted mirrors provide a clear rear view.

Rear obstacle detection system enhances safety on the job site.

Choose between different image layouts to suit your working environment.

Control your safety with the 270-degree view Aerial Angle® camera system.

LED work lights improve visibility in challenging conditions.

Daily inspection reminders make life easier for operators.

Easy maintenance features minimise downtime.

Intelligent fan operation system prevents radiators clogging.

Engine cover enables convenient access for daily inspections.

ZW-7 wheel loaders are tested rigorously to ensure high levels of durability.

In control of your assets

Boost your uptime

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi Construction Machinery owners have profited from generations of ultra-reliable and durable machinery – and the ZW-7 range is no exception.

The latest wheel loaders have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

As a result, several unique durability-enhancing components have been fitted to the latest Stage-V compliant machines. And the intelligent fan operation system prevents radiators from clogging by adjusting the periodic intervals of the automatic reversible fan electronically.

Downtime is minimised by the priority given to easy maintenance features, such as anti-clogging radiators, which save you time and money.

In control of your fleet

The alerts on the ConSite Pocket App provide real-time information.

Manage your machine

Hitachi Construction Machinery offers a wide range of after-sales services to help you feel in total control of your fleet and workload. These initiatives give you access to vital data and tools to manage your machine.

Remote monitoring systems Owner's Site and ConSite send operational data daily via GPRS or satellite from your wheel loader to www.globaleservice.com. This includes: ratios of operating hours to enhance efficiency; fuel consumption to manage running costs; and machine location for planning purposes. ConSite summarises the information in a monthly email.

The ConSite Pocket App sends you real-time alerts for issues arising with your machine. You'll receive recommendations on what to do and step-by-step help guides. The app also enables you to see the location of your fleet.

A wide range of data on Global e-Service enhances efficiency.

Monitoring the performance of your wheel loader ensures exceptional reliability.

Hitachi Construction Machinery offers a wide range of after-sales services for planning maintenance and managing running costs.

Minimise downtime with Hitachi Genuine Parts.

HELP extended warranties and service contracts provide optimal performance.

Hitachi Premium Rental enables you to pay as you earn.

Hitachi Construction Machinery provides the highest level of technical support.

In control of your uptime

Protect your investment

If your machine will be working in severe conditions, or you want to minimise repair costs, you can take advantage of a unique extended warranty programme called HELP (Hitachi Extended Life Program) and comprehensive service contracts. These can help to optimise performance, reduce downtime and ensure a higher resale value.

We apply the same technological expertise to our wide range of high-quality parts as we do our machines. As a result, you can minimise unscheduled downtime and ensure maximum availability.

The parts range includes Hitachi Genuine Parts, Performance Parts, filters, undercarriages, and remanufactured components. We also offer ground engaging tools and buckets, which have been manufactured to the same exacting standards.

As your business grows, you may need to extend your fleet to meet the demands of new contracts. Why not try before you buy with the Hitachi Premium Rental programme? This gives you immediate access to ZW-7 wheel loaders for a period of one month to a year.

Along with the reliability, quality and service you would expect from the Hitachi Construction Machinery brand, Premium Rental offers flexible contracts and fixed costs that make it easier for you to budget.

In control of your performance

Straight side cutter

Customise your machine

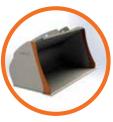

Designed to work in perfect harmony with your wheel loader, durable buckets and robust ground engaging tools (GET) from Hitachi Construction Machinery will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi Construction Machinery equipment, they offer unrivalled reliability, exceptional performance and peace of mind that you are getting the most from your machine.

The right bucket for the job

You can increase the versatility of your wheel loader by choosing the right bucket for the job. For loading light materials or heavy-duty work, Hitachi Construction Machinery buckets can be customised to meet your needs. You have a wide range of options to choose from – including general purpose, rock, high dump and light material buckets – and selectable options such as types of floors and spill guards, side cutter shapes, side wear plates and wear parts are also available. The ISO quick coupling system makes it easy for you to quickly connect Hitachi Construction Machinery buckets to your wheel loader.

Enhanced digging power

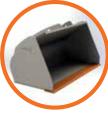

You can enhance the digging power and productivity of your wheel loader with Hitachi Construction Machinery GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using Hitachi Construction Machinery GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine. Convex side cutter

Create your vision

In control of your world

When you take delivery of your new machine, you become part of the latest generation of a global family. With a 70-year heritage in designing hydraulic excavators, and a reputation as the industry's leading mining machine manufacturer, the Hitachi Construction Machinery network will give you access to a range of exceptional equipment.

Hitachi Construction Machinery excavators, wheel loaders, rigid dump trucks and special application machines incorporate advanced technology and pioneering expertise. Made at state-of-the-art facilities, they are built to the highest standards. You'll also benefit from market-leading services and initiatives, such as Premium Rental and Premium Used, which have been created to enhance your experience as a customer.

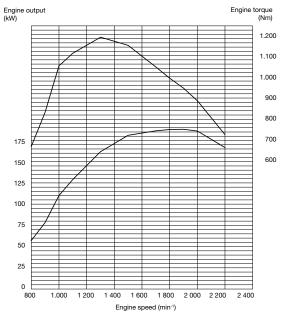

Whatever vision you wish to create, Hitachi Construction Machinery has the product, people, solutions and services you need to make it become a reality – and empower you to take control of your world.

23.5R25 (L5) XMINED2 PRO	0

MISCELLANEOUS	
Articulation lock bar	•
Auto lubrication system	0
Belly guard (Bolt on type) (front / rear)	0
Bucket cylinder guard	0
Cab top rail	
Front rail on the cab top	•
Rear rail on the cab top	•
Cab window cleaning foot plate	•
Counterweight, built-in	•
Cutting edge protection	0
Drawbar with locking pin	•
Emergency steering	•
Fenders	
for 23.5R25 (Front & full covered rear fenders with mud flaps)	•
Global e-Service	•
Lift and tie down hooks	•
Lift arm	
High lift arm	0
Standard lift arm	•
On board information controller	•
Pilfer proof	
Battery cover with locking bracket	•
Lockable engine cover	•
Lockable fuel refilling cap	•
Rear licence plate bracket	0
Radiator dust protection screen	0
Road homologation	
German road homologation kit: rear license plate bracket,reflective sticker, wheel blocks	0
Italian road homologation kit: cab lights, cutting edge protection, link stopper, rear license plate bracket, reflective sticker, rotating lamp	0
Spanish road homologation kit; rear license plate bracket, rotating lamp	0
Standard tool kit	•
Tool box	•
Wheel blocks	•

Standard and optional equipment may vary by country, so please consult your Hitachi dealer for details. * Hitachi Construction Machinery cannot be held liable for theft, any system will just minimize the risk of theft.

Prior to operating this machine, including satellite communication system, in a country other than a country of its intended use, it may be necessary to make modifications to it so that it complies with the local regulatory standards (including safety standards) and legal requirements of that particular country. Please do not export or operate this machine outside the country of its intended use until such compliance has been confirmed. Please contact your Hitachi dealer in case of questions about compliance. These specifications are subject to change without notice. Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in colour and features. Before use, read and understand the Operator's Manual for proper operation.
